

Seminar on Arach

Posted by kev - 02 Aug 2016 20:52

Its in the USA but its a slightly different approach to pain relief.

Hi Kev,

Did read about this Seminar. I've had several blood tests and was told all ok apart from thyroid, so on low dose Levothyroxine to correct. Don't know what test for inflammatory markers is?? Have you learnt anything new since the Seminar took place, be interested to hear your views.

Best wishes Helen
