

For Dr. Sarah

Posted by Aly - 25 Sep 2007 07:58

Dear Dr. Sarah, I am very glad to read that your work is being recognized and that you are receiving an award in October.

You are such a champion and an advocate for those of us with arachnoiditis. Personally several years ago you took the time and you helped me ask the right questions.

Sure today I still have the same disease but I'm at least being treated correctly.

Much friendship to you, Aly (chemical meningitis post myelogram)

Hi Aly

Thanks for that about DocSarah.

I sent this three times not knowing:woohoo: Told you I was no good at this posting lark. Tried to send an attachment but it was too heavy!!!🙄

Hi Aly

Thanks for that about DocSarah. She really does try to help. I know she recently did the same for another member. That's why I posted the other articles but if you want an update from her I can try. I copied your response into an email to her and I know it cheered her up. She can have bad days, just like us. She has also sent me another couple of Powerpoint Presentations she has done but I don't know how to post them of the website yet. Another steep learning curve coming on. If you want to have a look, just email me and I can send them as files:S

Thanks again

Kim

Going to try attachment file, if it doesn't work SORRY
