Hello merilla,

yes are einfach.ich have much over arachnoiditis in the Internet to find-to example COFWA and that have me much geholfen.in Germany give it such sides not and also none do not live selbsthilfegruppen.ich know only 2 concerned and with those are I in contact as I in the hospital for operation were, were also a patient from California, because there are no physicians, who operate in America.

I created a self-help group in Germany now, but she is still very new.

the address reads:

how does one help you at present and how old is you? how long do you already live with the diagnosis Arachnoiditis?

I white only it in the world many concerned gives and everyone tried as well as possible thereby clearly to come.

loves greet libra
